Date Funded (first funding):	December 16, 2008	City:	Los Angeles
Date Repaid <sup>1</sup> :	N/A	State:	California

<sup>1</sup>If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

**What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).**

☐ Increase lending or reduce lending less than otherwise would have occurred.

☐ To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).

☐ Increase securities purchased (ABS, MBS, etc.).

☐ Make other investments.

☒ Increase reserves for non-performing assets.

The Holding Company invested the funds in the Bank which allowed the bank to increase loan loss and other real estate owned reserves while still remaining well-capitalized and able to support existing borrowers.

☒ Reduce borrowings.

The funds enabled the Bank to reduce large and expensive time deposits.

☒ **Increase charge-offs.**

As stated above, the funds allowed increased reserves and charge-offs without dissipating existing capital.

☐ **Purchase another financial institution or purchase assets from another financial institution.**

☐ **Held as non-leveraged increase to total capital.**

(Include Holding Company Where Applicable)

NCAL Bancorp

### What actions were you able to avoid because of the capital infusion of CPP/CDCI funds?

Without the funds the Bank would have been forced to reduce a significant amount of assets, including loans, to keep capital ratios within regulatory guidelines. In addition the Bank would have had to seek capital from other sources which was very expensive and not readily available.
